San Francisco, CA**

TEAM LILY MISSION STATEMENT

Team Lily is a Zuckerberg San Francisco General Hospital-based multidisciplinary care team providing person-centered, trauma-informed, wrap-around services to pregnant and postpartum people. We support pregnant people experiencing significant barriers to accessing clinic-based prenatal care, primarily those experiencing homelessness, substance use disorders, incarceration, intimate partner violence, and/or mental illness. We strive for a pregnancy, birth or abortion, and postpartum experience that is filled with dignity, that is grounded in autonomy, and that uplifts individual or parenting goals. We are committed to dismantling structural racism and challenging the stigma and discrimination that drive Team Lily clients' barriers to care, health, and well-being.

TEAM LILY OFFERS

- Flexible appointments, meeting the needs of individual clients and off-site visits
- Easy access to team members via phone and text
- Pregnancy counseling - abortion, adoption, and pregnancy continuation
- Pregnancy and postpartum care, and linkage to abortion services
- Mental health services
- Addiction services including buprenorphine / suboxone treatment
- Navigation & case management to assist with access to housing and other resources
- Support around navigating CPS and CPS reunification
