#### **Campfires of Hope:**

Stories of Cancer aims to empower the adult cancer community through storytelling and education.

The Campfires of Hope: Stories of Cancer podcast brings warmth, storytelling, and education to the cancer community. Campfire is a time for gathering together with family and friends, being in the present moment, and feeling love and connection as we share and receive knowledge from one another. During these campfire chats we discuss topics that empower those impacted by cancer, including mental health, living with stage 4 cancer, working with your medical team, personal wellness, fertility, and more. Available where you listen to podcasts.

What is *All of Us?* Part of the <u>National Institutes of Health</u>, *All of Us* is changing how health research is done.

We're building one of the largest and most diverse health databases of its kind. Researchers are already using this data to learn more about why people get sick or stay healthy, and what makes each of us unique.

They're using this information to find better ways to prevent and treat cancer and other illnesses in order to care of <u>all of us</u>.
